

INVITING YOUNG INDIA TO INNOVATE FOR CHANGE

Hello Young Superheroes,

Welcome to the 15th DFC I CAN School Challenge!

- » To begin the DFC project of change, you must first form your Super Squad.
- » Each Super Squad has 5 team members. So, get your all classmates together and form as many Super Squads as you can!
- » Now, carefully read the challenge prompts below. You can choose from these or select any other real-life challenge that bothers your Squad.
- » Then, solve your real-life challenge by following DFC's award-winning framework FIDS (Feel, Imagine, Do, and Share) to design the DFC project of change.

1. CHALLENGES OF THE YOUTH

How might we equally balance our studies and household responsibilities?

How can we prevent bullying within and outside our school?

What can we do to ensure mutual respect and kindness among schoolmates?

What can we do to prevent body shaming and promote good health?

2. CHALLENGES OF THE PEOPLE AROUND US

What can we design to make our parents' lives easier?

How can we get our grandparents to participate in life outside of the house?

How might we improve the working conditions for our school support staff?

How can we help the vulnerable people in our surroundings?

3. CHALLENGES IN ACHIEVING GENDER EQUALITY

What kind of objects or devices can we design to promote girls'/women's safety?

How might we make public spaces inclusive for all genders?

What can we do to empower girls/women within the household?

How can we ensure equal participation in the school for all genders?

4. CHALLENGES OF CLIMATE CHANGE

How can we save energy to reduce household and school expenses?

What can we design to help people survive extreme weather conditions?

How might we reduce dependence on single-use/disposable consumer items?

What can we design to conserve and store water to prevent water shortages?

Remember, your Squad must understand the root causes of the real-life challenge to come up with solutions that are bold, creative, and long-lasting.

We know you will do a splendid job!

All the best,

Team DFC, India
